MARYVILLE, MISSOURI, WEDNESDAY, MAY 10, 1916

NO. 293.

JOSEPH KANE STATE DEPUTY

ST. LOUIS MAN WINS HIGHEST HONOR TODAY.

MARYVILLE PRAISED; LOYALTY TO WILSON

Election and Business Session Take Knights of Columbus Time Today in Convention.

Resolution Thanking Maryville.

Be it resolved, That the state council of Missouri hereby expresses its sincere appreciation of the generous spirit of true hospitality so strikingly in evidence everywhere during our stay in Maryville.

We feel especially indebted to the members of the Maryville Commercial club, who have made such thorough and satisfying arrangements for our entertainment; to President Ira Richardson, who so courteously tendered us the use of the Normal school for the banquet, and to the citizens of Maryville, who arranged automobile transportation for the trip to Conception.

It goes without saying that we are deeply mindful of the religious services arranged for us by the pastors of the two Maryville churches, and we feel indebted to the Right Rev. Bishop Burke and the Right Rev. Bishop Lillis for their lending us their presence and encouragement.

To the abbot and members of the Benedictine order at Conception for the hospitable reception; for all these evidences of thoughtfulness our heartfelt gratitude. For many reasons our stay in Maryville will be treasured as among the most pleasant of our annual meetings.

Resolutions Favor Wilson.

The following resolution was adopted by a rising vote unanimously by the Knights of Columbus today:

We, the Knights of Columbus of the state of Missouri, in state convention assembled, recognizing the deplorable conditions existing in Europe, and aware, as our president has said, that a spark from the great conflagration may ignite our own beloved country in a blaze of war, do reaffirm our allegiance to the United States of America, the country of our birth or adoption.

We recognize no duty or allegiance, of whatsoever nature, to any nation except the United States of America, for whose honor and principles we are ready and willing to sacrifice all that we possess should occasion demand. Irrespective of our various political beliefs, we pledge our fealty to the president of the United States.

The election of officers and a business session were held at the state convention of the Knights of Columbus this morning and afternoon.

Joseph Kane of St. Louis was elected

Notes of the Knights

M. J. Hackett was an active candidate for re-election as grand sovereign of the fifth degree. His friends say that he has shown rare ability in that place of honor and will be long remembered for his work at Cape Girardeau and St. Louis.

J. Edwin Fox, representative of the Western Watchman, met with a very painful accident when a part of the stand collapsed upon which the delegates were standing to have their pictures taken. Three of his toes were badly mashed. The men on that part of the stand are said to have been "jiggling" up and down in time.

The banquet last night was under the management of Cleve J. Funk. The serving was done by the Ladies of the two Catholic parishes, St. Mary's and St. Patrick's.

Five boxes of cigars were taken from among the stores for the banquet last night. Mr. Funk got no clew to the thieves.

John S. McGaw of Sedalia is one of the visitors attending the state convention of the Knights of Columbus. He is district deputy of the K. C., and is one of the clerks in the Sedalia post-office.

Probably \$75,000 worth of automobiles were used in taking the Knights of Columbus to the convent, college, chapel and monastery at Conception and Clyde this afternoon.

Maryville not only claims to have the best, to be the most up-to-date and progressive town for its size in the state, but Maryville as a whole gets back of the above statements, and every visitor that comes to Maryville is convinced of this in a very short time.

P. S.—This is what the delegates say.

Donald Goforth III.

Donald, the young son of Mr. and Mrs. W. E. Goforth, who has been seriously ill with tonsillitis since Saturday, is slightly improved today.

New Lull at Verdun.

Paris, May 10.—A lull has fallen upon fighting on the Verdun front after a week of bloody infantry onslaughts and mighty bombardments. The French war office communique stated that there was no infantry action at Verdun last night and very little activity artillery. There were feeble grenade combats in the forest of Avocourt. The Germans tried surprise attack between Boisse and Aisne rivers but were repulsed.

Rumor of Sinking at Halifax.

Niagara Falls, May 10.—A rumor said to have originated at Halifax, that a transport carrying Canadian troops to England had been sunk was persistently circulated here today. There is no confirmation from any source, however.

British Destroyer Damaged.

Berlin, May 10.—A British destroyer was badly damaged by gun fire during a brief engagement between German and British warships off the coast of Belgium, it was officially announced today.

German Position Extended.

Berlin, May 10.—The new German position on Hill 304, northwest of Verdun, has been extended, the war office announced. Advance detachments of the French to the southwest of the hill were driven back still further. SAVANNAH LOST 3-1 8TH GRADES DONE

IT TOO KMARYVILLE H. S. II INNINGS TO DO IT.

THEY PLAY HERE MAY 16

Locals Go to Grant City Next Friday—Had to Change Line-Up Completely.

Maryville high school continued serenely on its winning way in baseball by copping a game from Savannah high school yesterday afternoon. This team won from Central high school, St. Joseph, last year so the victory was all the sweeter.

The score was 3-1 and the game had to go eleven innings for a decision. This also adds to the saccharine quality of the winning. Savannah is coming back next Tuesday afternoon and (if it doesn't rain) look out for one awful tussle. M. H. S. goes to Grant City for a return game next Friday afternoon.

The first man up for Savannah got a clean hit on the first ball pitched and the crowd went wild when he was scored a little later by another clean hit but they little knew that Van Cleve had already yielded two-thirds of the hits he would allow during the eleven innings.

Maryville also scored in the first inning and then the game settled into a pitcher's battle with Van Cleve having the edge on the hits and the Savannah twirler in the strikeouts Kenny yielded three hits to his opponents six and struck out eleven while fifteen M. H. S. were swishing the air.

The pitchers' battle for the Savannah moundman broke up in the first of the eleventh. Holmes, first up, slammed a hot one to short, too hot in fact to handle. Nixon followed with a Texas leaguer over first and Holmes went to second. Hise was hit, filling the bases.

Then the pitcher gave way. Van Cleve was handed a free trip to first, scoring the winning run by the force-in route. Harris fanned, Egley hit to second, Nixon scoring on the fielder's choice. Crawford fanned. Van Cleve retired the last half of the inning in order.

Hise made the other Maryville run in the first. The hits were made by Nixon, Selecman, Holmes and Van Cleve, two. A complete change in the line-up was made after getting to Savannah. Lewis was unable to play because of a hip being thrown out of place. Hagins was unable to make the trip.

So this line-up was used and it worked admirably, according to Coach Becker: Egley, c; Van Cleve, p; Crawford, 1st; Selecman, 2nd; Holmes, ss; Woodard, 3d; Hise, lf; Harris, cf; Nixon, rf.

SCOTT REFERS PLAN TO WAR DEPARTMENT

Army Officers Say It Is Move to Facilitate Withdrawal From Mexico.

Special to The Democrat-Forum.

El Paso, May 10.—Co-operative patrol on the border by American-Mexican troops was proposed to Scott by Obregon. He told Scott that he believed in this way a repetition of the Columbus and Glenn Springs massacres would be prevented.

Obregon's plan is to bring a large number of Mexican troops to the border stations at various points and that the Americans do the same.

Scott gave Obregon no assurance as to the attitude of the United States in the matter. He immediately referred the plans to the war department.

Army officers termed the proposition a move to facilitate the withdrawal of the American troops from Mexico.

Dumplings

For Soups, Stews and Fricassee Chicken

Left overs of roast lamb, veal or beef, the cheaper cuts of fresh meats, and fowl too old for roasting, make delicious and nourishing stews. K C Dumplings make them doubly attractive and the whole dish is most economical—an object to most families while meats are so high and must be made to go as far as possible.

K C Dumplings

By Mrs. Nevada Briggs, the well known baking expert.

2 cups flour; 3 level teaspoonfuls K C Baking Powder; 1/2 teaspoonful salt; 1/2 cup shortening; milk or cream.

Sift together three times, the flour, baking powder and salt; into this work the shortening and use cream or milk to make a dough less stiff than for biscuits.

Allow the stew to boil down so that the liquid does not cover the meat or chicken. Add half a cup of cold water to stop its boiling and drop the dough in large spoonfuls on top of the meat or chicken. Cover and let boil again for 15 minutes.

Made with K C Baking Powder and steamed in this way, dumplings are as light as biscuits and are delicious with thickened gravy.

This recipe is adapted from one for Chicken Pot Pie in "The Cook's Book" by Janet McKenzie Hill, editor of the Boston Cooking School Magazine. The book contains 90 excellent recipes for things that are good to eat and that help reduce the cost of living. "The Cook's Book" sent free for the colored certificate packed in every 25-cent can of K C Baking Powder. Send to Jacques Metz Co., Chicago.

We are authorized to announce the candidacy of W. A. Burks for sheriff of Nodaway county, subject to the action of the Democratic primary, August 1.

It is perfectly apparent that President Wilson will never do anything right until Teddy gets over his desire for a third term.

The unfortunate Irishmen who lent themselves to the recent revolution exercised a woeful lack of judgment. To undertake a revolution with a handful of men when all England is under arms with hundreds of thousands of trained soldiers within a day's ride was tempting fate with a vengeance. The world sympathizes with Ireland in its struggle for freedom, but the cause has not been benefited by this last effort.

LITTLE WEATHER STORIES

Interesting Tales of How U. S. Bureau Prevents Loss and Saves Life by Warnings.

There are many little stories going to show how the government helps the people.

During the night of Saturday, April 8, doubtless many travelers riding through the agricultural sections of Ohio were puzzled by the scores of lights and barn fires that twinkled past. A general frost warning had been issued at Washington. From the weather bureau's station at Columbus, over every phone and telegraph line in Ohio, there had gone out this admonition: "Heavy frost tonight. Temperature 20 to 25 degrees. Advise protective measures for all crops and fruits wherever possible." This went to every hamlet and every farm house having phone connections—nearly all have telephones now—in Ohio. The smaller lights were oil stoves which are best for this work. The larger consisted of fires usually built of anything that would burn. Wholesale destruction of the most sensitive crops was prevented.

Here's another one. At exactly 4:46 p. m. the afternoon of August 15, 1915, this warning went to every gulf town from New Orleans to Brownsville, Texas:

"Tropical storm in center of gulf moving northwest. Will probably reach Texas or Louisiana coast by Monday a. m. Warn all interested to take every precaution. All shipping should remain secure in port. At 2 p. m. wireless report from the east central gulf showed barometer 27.54 and wind 70 miles an hour from the east."

According to schedule, the second Galveston hurricane broke with all fury early the following morning. But there had been a full twelve hours warning. This and the fact, too, that during the lull of years after the first hurricane the Galveston sea wall had been built by the government, prevented a repetition of the first disaster.

The weather bureau is among the most picturesque and useful of the great public service enterprises maintained by the government.

IT IS TO Laugh

JACK RYAN'S WIT.

Some of the jokes by which Jack Ryan kept the banqueters laughing so heartily last night are given in the following.

Mr. Ryan said that he believed in suffrage. "I am strongly of the belief," he said, "that every woman should on election day go to the polls—north and south."

"And I feel the same way about saloonkeepers on this voting proposition. The liquor men do have this one thing in their favor. Some of them really do shut up on Sundays."

"Speaking of Columbus reminds me that he must have been a jolly convivial chap. You never hear anything about his days, but look how much talk there is about the Knights of Columbus."

"One of these unconvivial fellows asked me recently if I thought that he could live a Christian life on \$4 a week. I told him that I did not think he could live any other kind."

"Another fellow asked me if I believed in the existence of a higher power. Sure I do, said I, I married her."

"An Irishman joined a British regiment. In the practice drill the captain would say 'Attention, forward march, Halt,' and then repeat time after time. About the sixth time this happened the Irishman threw down his gun and said: 'I'm not goin' to fight in your army. You change your mind too damned often.'"

"Another Irishman owed a large rent to a German landlord. Finally he got a job in a munition factory. He told the landlord that he was making munitions and sending it to the Germans. The Teuton was much delighted and refused to take any pay for the rent. Just as he started to leave, however, he stopped and asked: 'By de vay, how get you that munitions to the Germans.' Pat said: 'We sent them to the allies and they shoot them over to the Germans.'"

"Still another Irishman got a job in the railroad yards and was trying to tell his wife what the work was like. 'You know how the man runs along and taps the wheels.' 'Yes.' 'Well, I go along to help listen.'"

Landry Harwood, state deputy, was no mean joke teller himself. He related the funny experience of his staff in going over the state. In one place a man was introduced to a very, very homely girl. "Mr. Jones," said the introducer, "this is Helen Winter." "Golly," said Jones, "what is she in summer?"

ABOUT DADDY LONGLEGS

Don't Call Him a Spider for He Has No Poison Glands and Is Harmless.

Don't call a daddy longlegs a spider, because he isn't. Spiders bite and have poison glands. This insect is perfectly harmless. It isn't just pleasant to have one of them crawl up your arm or down your neck, but you're just as safe as when he isn't there—ten times safer than the insect is just at that moment. He's not only harmless, but so common that you'll find him almost any place in the world where it's warm enough for him to exist.

In good old American language we call him daddy longlegs. Maybe you've heard him called harvest man or grandfather graybeard. He has eight long legs bowed in the middle, so that when he's standing up his little round body almost touches the ground where he walks. He also has two eyes and two pincers, which you will see if you examine him closely.

From midsummer to late autumn daddy longlegs scampers about over rocks, tree trunks, gets in the picnic marmalade in the park, crawls up the fisherman's neck along the stream, collects in barns and has a general good time. Few of them ever survive the winter.

In Mammoth cave, Kentucky, the daddy longlegs are blind.—Philadelphia North American.

Mrs. S. B. Davidson, Mrs. Will Bush and daughter, Ethel, Mr. and Mrs. Jake Bush and daughter, Helen, and Miss Eva Miller of Clearmont were business visitors here yesterday.

"BIGGEST" BANQUET

(Continued from page 1.)
"Before I close," said Mr. Harwood, "permit me to say that this banquet would do credit to any city. We were considerably concerned at Cape Girardeau as to whether a city the size of Maryville could entertain us. But you have done it to a queen's taste, and far better than we had hoped for. We thank Maryville."

Judge Thomas F. Ryan of St. Joseph was not able to attend the convention. Mr. Harwood was followed by John McQueeney of Kansas City, who sang three Irish ballads without accompaniment before the crowd would let him stop.

Hart Born Near Here.

Luke Hart of St. Louis, who was on the program for the next number, stated that he was born just across the line in Iowa, north of Maryville, and expected to be at home by that time today. His address was upon "Catholic Citizenship."

He urged that duty goes hand in hand with benefit. His belief was that every man should be very much in love with his native land and should be concerned with its government. He stated that the Catholic church trains its citizenship.

"I believe that every Catholic should get actively into politics. Every Catholic should align himself definitely with a party," said Mr. Hart. "He should use his influence in the control of that party in every way and should accept public office whenever offered."

"Do you suppose for a minute that the anti-Catholic publications which are so full of calumny would be tolerated if the 18,000,000 Catholics in this country rose up and asserted themselves. Let us make our Catholic citizenship mean more."

Jack Ryan of St. Louis entertained the guests for almost an hour with a succession of jokes in the form of a monologue. He is a representative of the Wabash R. R. He addressed the gathering as "Mr. Toastmaster, Ladies and Gentlemen, and Ed Ferritor." Mr. Ferritor is agent of that railroad here. His fun is given into our "It is to Laugh" column in another part of the paper.

PRINCE ALBERT

the national joy smoke

in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it!

It answers every smoke desire you or any other man ever had! It is so cool and fragrant and appealing to your smokeappetite that you will get chummy with it in a mighty short time!

Will you invest 5c or 10c to prove out our say-so on the national joy smoke?

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Prince Albert gives smokers such delight, because

- its flavor is so different and so delightfully good;
- it can't bite your tongue;
- it can't parch your throat;
- you can smoke it as long and as hard as you like without any comeback but real tobacco happiness!

On the reverse side of every Prince Albert package you will read:

"PROCESS PATENTED
JULY 30th, 1907"

That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

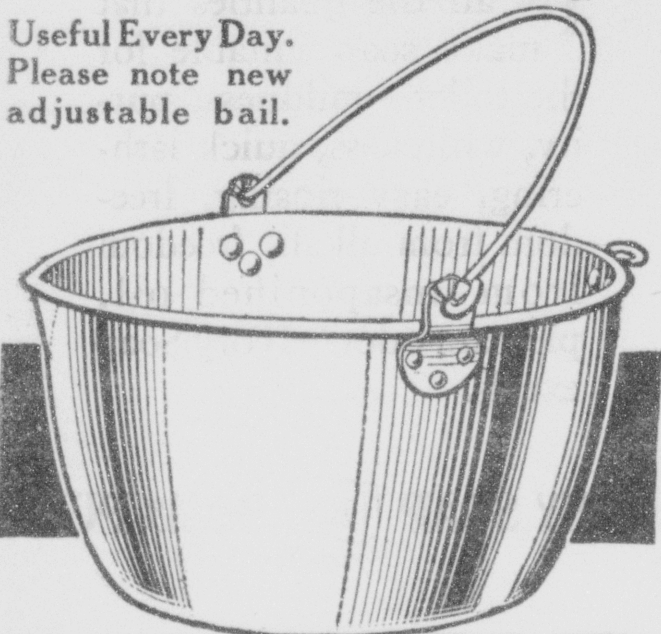

This is the reverse side of the Prince Albert tin. Read this "Patented Process" message-to-you and realize what it means in making Prince Albert so smooth to your liking.

 ing. Further additions to the ranks

NO "WONDERFUL" WHEAT

U. S. Department "Spikes" Story That
 Any Variety Makes You
 Rich Quick.

The notion that there is a wonderful
 wheat which will make the fortune of
 any one who plants it seems to be al-
 most as old as agriculture itself. In
 this country, at least, such an assertion
 was made for the so-called Jeru-
 salem wheat as early as 1807, and, un-
 der the name of Alaska wheat, this
 identical variety is still being pushed
 upon the unwary at exorbitant prices
 for seed. Almost equally exaggerated
 claims are made for the Stoner vari-
 ety, but this particular wheat has not
 such a long history.

Because of the many attempts that
 have been made by promoters to foist
 these wheats, under one name or an-
 other, upon the farmers of the coun-
 try, the U. S. department of agricul-
 ture has made careful tests of their
 value. In bulletin 357 of the depart-
 ment the results of these tests are said
 to show conclusively that neither of
 the wheats possesses any peculiar
 quality which justifies high prices for
 the seed. Many varieties grown com-
 mercially throughout the country have,
 in fact, proved to be somewhat super-
 ior to either the Alaska or the Stoner.

WALL ST. TO TURN CLOCK UP

Popular "Trick" for Getting More Day-
 light May Be Adopted by
 Financiers.

Special to The Democrat-Forum.
 New York, May 10.—Agitation has
 been started by influential members of
 the stock exchange for turning the
 clock ahead an hour in summer to give
 brokers and employes longer evenings.
 It is proposed to open at 9 o'clock in-
 stead of 10 and close at 2. The only
 serious opposition is expected from big
 call money banks, which would be open
 an hour after the close of trading. Ger-
 many, Austria and Holland already
 have advanced the clocks 1 hour, and
 a bill for similar action now is before
 the English parliament.
